

Empower Employees and Engage Customers Using Digital Signage

Improve sales, capture customer attention, and boost employee engagement with relevant content displayed across your business. L Squared Digital Signage provides enterprise-grade engagement tools designed to improve communication for the modern workplace and modern store. Hosted on Microsoft Azure for secure, highly scalable performance, and built on Intel Technologies.

Communicate with flair

Bring your screens to life with HD content, including videos, pictures, app feeds and more.

Target effectively

Instantly stream and update content based on location, audience, and other criteria.

Ensure timely reach

Minimize trickle-down communications by sharing real-time information and alerts.

Eliminate downtime

Serve your content from Microsoft Azure, a cloud-based platform that is highly scalable, secure, and resilient.

Simplify management

Manage all your screens from one central console, across any geography. Take advantage of a solution that meets Intel IoT Market Ready standards.

Detailed analytics

Easy collection of air quality data helps provide deep insight for maintaining standards and improving air quality.

Effortlessly distribute content across your organization
