

Smart, portable health screening and testing

Citizen Care Pods are customizable, self-contained health screening and testing units that use intelligent technology to enable safety and security in the physical testing environment for patients and front-line health workers. Powered by Azure cloud platform, Azure AI, and Intel technology, Citizen Care Pods expedite health testing, screening, and eventually vaccination in high-traffic business environments and communities.

Expanded healthcare

Relieve overburdened providers

Customizable features

Select smart technology options

Scalable operation

Support rapid, widespread deployment

“ Detection and prevention of the further spread of viruses is key to getting people back to work and interacting together in public again. The Citizen Care Pod demonstrates how intelligent technology can accelerate that effort in a safe and sensible manner.”

Stan Lequin

Vice President and General Manager, Digital Innovation, Insight Enterprises.

Deploy portable health services
